

GUIDE: S.I.R. Tengenoupal Portal Launched

Designed and developed by the Tengenoupal District Unit of NIC Manipur under the Guidance of DEO Tengenoupal to assist voters during the Special Intensive Revision 2026 of Electoral Rolls

GUIDE: S.I.R. — Guidance for Updation, Inclusion, Documentation and Electoral Support during the Special Intensive Revision (S.I.R.) 2026 of Electoral Rolls. Portal: <https://guidesirtpl.mn.gov.in/>

The **GUIDE: S.I.R. Tengenoupal Portal** was launched by **Shri Arun Kumar Sinha, IAS, Chief Electoral Officer, Manipur**, at the CEO Office, Manipur on 2nd September, 2026, in the presence of **Shri Saurabh Yadav, IAS, Deputy Commissioner and District Election Officer, Tengenoupal**, **Shri N. Binod Singh, Scientist-F and State Informatics Officer, NIC Manipur**, **Md. Asghar Arzad, Electoral Registration Officer, 42-Tengenoupal (ST) AC** and **Shri Kamruz Zaman, Scientist-F & Senior Technical Director, NIC Manipur**. The National Informatics Centre (NIC), Manipur, Tengenoupal District Unit, under the proper team by Shri Thokchom Dayaananda, District Informatics Officer, designed and developed the portal under the guidance of the District Election Officer, Tengenoupal and NIC SHQ.

The portal is the technological pillar of the **GUIDE: S.I.R.** initiative of DEO Tengenoupal, which also comprises a district-wide awareness campaign and a dedicated Help Desk. It supports voters during the Claims and Objections and Notice and Hearing phases of the Special Intensive Revision (SIR) 2026.

The portal streamlines and strengthens the **chain of documentation support available to voters**. The document set required by a voter is determined from the date of birth and conveyed at the first point of contact; where a document is missing, damaged or never issued, the case is carried forward through the **District Task Force for Documentation** to the department concerned for verification, retrieval or re-issuance wherever legally permissible.

Distinguishing features of the portal

- **A streamlined documentation support chain** — requirements of documents are determined case-wise and processed through the District Task Force for Documentation, so that paperwork does not become a barrier to a genuine claim.
- **Calls and complaints maintained on the portal** — every call made to a voter and every complaint received is recorded and followed up on the system, replacing manual registers with an auditable record at the DEO Office.
- **State-of-the-art technology, including Agentic AI**, applied to the building and progressive verification of the portal's electoral database — the first district-level initiative in Manipur to incorporate these technologies.
- **Data analytics at the district level** — polling-station-wise and category-wise insight into the electoral roll, which contributes to informed planning by the District Election Officer.
- **A foundation for IT-based innovation in the conduct of elections**, extending beyond SIR 2026 to election planning, control-room call handling and district-level decision-making.
- **A minimal, low-bandwidth design** suited to a hill and border district.

The portal is a facilitation measure only. All claims and objections continue to be decided impartially by the District Election Officer, the Electoral Registration Officers and Assistant Electoral Registration Officers concerned, in accordance with the provisions & guidelines. Voters requiring assistance may call the helpline numbers below, following which the **GUIDE: S.I.R. Tengenoupal** team will guide them through the process in coordination with the departments concerned.

"No eligible voter with a rightful claim is left out of the final electoral roll due to lack of awareness, documentation or procedural difficulties."

Saurabh Yadav, IAS
District Election Officer, Tengenoupal
